

INTERGOVERNMENTAL OCEANOGRAPHIC COMMISSION OF UNESCO (IOC-UNESCO)

hereby certifies that

I Gede Mahendra Wijaya

successfully completed the 25-hour online training course

Building Skills for Coastal Restoration with Nature and People

organized by the IOC of UNESCO in collaboration with A-AAGORA

Certificate No. ncmxnEKGFr

September 30, 2026

Course Learning Outcomes

- Understand why coastal restoration is essential for biodiversity, climate resilience, and sustainable coastal development.
- Identify and assess Nature-Based Solutions for delivering ecological, social, and climate benefits.
- Design participatory restoration processes involving communities, stakeholders, and innovation ecosystems.
- Evaluate how to scale up coastal restoration through governance, financing, and long-term implementation strategies.
